From the desk of the CEO

The end of 2016 was action packed for CASA as we launched the CASA Survey of Casino Entertainment in South Africa 2016. This objective of this survey is twofold:

1. To provide insight and understanding about the vital role our members play in the South African economy and the contribution towards GDP
2. To provide research based data to inform public policy about the industry

We proudly presented this survey to the media during a media briefing session held at Montecasino on 7 December and received extensive media coverage. A heart-felt thank you to all our members who participated in the survey, we know it takes time and precious resources.

We have included below (for download) an infographic that highlights some of the major results from the survey. Please also take the time to watch the Podcast we produced for online use. If you would like a high resolution copy of the survey please contact [Khanyi](#).

I would also like to take this opportunity to welcome **Ms Qhinaphi Sitsila** to CASA. Hailing from Phumelela Gaming and Leisure Limited, she will be instrumental in assisting the team.

We are looking forward to an exciting and challenging year here at CASA as we continue to represent our members' best interests as well as the interests of the growing public that the industry serves.

**Advocate Themba Ngobese,
Chief Executive Officer, CASA**
