CASA in the news

Business Live:

Despite tough economic times, South Africans keep spending cash at casinos

MoneyWeb:

SA's gambling revenues up

Times Live:

Tough economy does not put the brakes on gambling in SA

Letter from the CEO

The new season is upon us and it is always an exciting time of the year as we reflect on the challenges and success of the preceding year. We are pleased to present the 13th edition of the Survey of Casino Entertainment in South Africa.

The objective of this survey is:

1. To provide insight and understanding about the vital role our members play in the South African economy and the contribution towards gross domestic product; and
2. To provide research-based data to inform public policy about the industry.

In the year ended March 2018, we saw some growth in the casino gambling revenue after the worrying decrease we experienced during the previous year. Although illegal gambling activities continue to threaten our revenue, we are pleased to share that the year under review saw a 3.5% increase.

This uptick in turn enabled CASA members to contribute R6.1 billion towards government tax revenue in the form of various taxes and levies. Highlighting some of the major results from the survey, we have included our infographic below for information. We also have packaged our findings in a podcast for online use. If you would like a hard copy of the report, please contact **Khanyi**.

We look forward to an exciting year ahead and CASA will strive towards its vision of industry leadership as we continue to represent our members' best interests as well as the public that the industry serves.

Adv Themba Ngobese
Chief Executive Officer, CASA

GROWING THE INDUSTRY, SUPPORTING THE ECONOMY.

The Casino Association of South Africa (CASA) has released its latest survey into the local casino industry, giving you insight into how much money is generated, how it is distributed and exactly who benefits.
