From the desk of the CEO

As we gear up for 2018, we are pleased to present the 12th edition of the Survey of Casino Entertainment in South Africa.

The objective of this survey is:

1. To provide insight and understanding about the vital role our members play in the South African economy and the contribution towards gross domestic product.
2. To provide research-based data to inform public policy about the industry.

The survey was presented during a media briefing session held at Emperors Palace on 16 October 2017 and we’ve since received extensive media coverage. We’d like to send a heartfelt thank you to all our members who participated in the survey - we know it takes time and precious resources.

We are pleased to note that, despite the challenges faced by the casino industry this year, including a 1.8% drop in gross gambling revenue, our members continue to make a positive contribution to South African society and the economy as a whole.

We have included below (for download) an infographic that highlights some of the major results from the survey. Please also take the time to watch the Podcast we produced for online use. If you would like a hard copy of the report, please contact Kellyn. Our marketing and communications team will be emailing you an information pack which we are encouraging you to use on your own platforms.

We look forward to an exciting and challenging year ahead of us as we continue to represent our members’ best interests as well as those of the growing public that the industry serves.

Adv Themba Ngobese
Chief Executive Officer, CASA
